[The Tanner Arts Center](#)

Brad Jenkins worked directly with George Newell and other members of the new artist facility in Santa Cruz to create this website. It shows the unique new facility at birth and shall follow it through its many incarnations.

The Tannery Arts Center website is powered by Joomla! Open Source software and presented in a custom built template by Brad Jenkins. The initial responsibility of the site is to provide an overview of the project and gather information with regards to artist interests, needs and desires. Applications were available for download and surveys were taken. The site will soon be re-visited to enhance your experience and show-off the great work that has thus far happened at The Tannery Art Center.

The first phase of construction has been completed and the artists have moved in!!

Visit the The Tannery Art Center website [here](#) .
