

NetWebSolutions Frames

The creative opportunities are endless with NetWebSolutions frames add-on for Corel Paint Shop Pro, MediaOne and the Photo Album family. You can add one or several frames to your images creating a 3D effect. There are high-res text QuickTags with transparent drop shadow and glow effects already applied in advance allowing you to produce professional looking presentations of your photos with ease.

There are thousands to choose from. Be sure to choose the package that is for the Corel product you are using.
